PROFESSIONAL SUMMARY

DevOps & Infrastructure Engineer with 16+ years of experience in IT infrastructure, cloud computing, virtualization, automation, and DevOps practices. Experienced in designing and implementing CI/CD pipelines, containerized applications, Infrastructure as Code (IaC), and Kubernetes environments. Strong background in AWS, Azure, Linux, Windows Server, VMware, Docker, Kubernetes, Jenkins, Terraform, and Ansible. Proven ability to lead technical teams, automate deployments, improve infrastructure reliability, and optimize operational efficiency.

Core Skills

- **Cloud Platforms:** AWS (EC2, IAM, VPC, S3, EFS, EBS, ELB), Azure
- **CI/CD:** Jenkins (Pipeline as Code), GitLab CI, Git
- **IaC & Automation:** Terraform, Ansible, CloudFormation
- **Containerization & Orchestration:** Docker, Kubernetes, Helm
- **Monitoring & Logging:** Prometheus, Grafana, ELK Stack
- **Systems & Virtualization:** Linux/Unix, Windows Server, VMware vSphere/ESXi
- **Security & Compliance:** Access control, encryption, patch management
- **Collaboration:** Agile/Scrum workflows, cross-team coordination

DEVOPS PROJECTS

CI CD Pipeline

- **Built complete CI/CD pipelines using Jenkins Pipeline as Code.**
- **Integrated GitHub Webhooks.**
- **Automated Docker image build and push to Docker Hub.**
- **Automated deployment to Kubernetes.**

- **Implemented environment variables and credentials management.**

Docker Project

- **Containerized Go applications.**
- **Created Dockerfiles and Docker Compose configurations.**
- **Managed multi-container applications.**

Terraform Project

- **Provisioned AWS infrastructure using Terraform.**
- **Created VPCs, EC2 instances, Security Groups, IAM roles.**
- **Managed Infrastructure as Code.**
-
- **Professional Experience**

IS&T

IT Team Lead | Senior DevOps & Infrastructure Engineer

Jan 2024 – Present

- **Lead IT and DevOps initiatives, mentoring a team of engineers and overseeing infrastructure operations.**
- **Designed and managed CI/CD pipelines using Jenkins and Git, reducing deployment times**
- **Automated infrastructure provisioning with Terraform and Ansible, improving consistency and reducing manual errors.**
- **Optimized AWS workloads (EC2, S3, VPC, IAM),**
- **Implemented Kubernetes clusters for microservices, improving scalability and reliability.**
- **Enhanced monitoring with Prometheus and Grafana, improving incident response.**

Senior System Administrator

2016 – 2023

- **Managed hybrid infrastructure across VMware ESXi, Windows Servers, and cloud environments.**

- **Migrated applications to containerized environments (Docker) for faster deployments.**
- **Administered Microsoft Exchange Online, AD, DNS, DHCP, VPN, and group policies.**
- **Strengthened system security with access controls, patching, and backup strategies.**

System Administrator

2014 – 2016

- **Installed, configured, and monitored servers, storage, and networking equipment.**
- **Supported business-critical IT operations and ensured 99.9% system availability.**

Sahm Group – System Administrator

2012 – 2014

- **Managed enterprise Windows Server environment and VMware virtualization.**
- **Supported IT operations, troubleshooting, and server deployments.**

Infotech – Technical Support Engineer

2010 – 2011

- **Provided end-user IT support and performed hardware/software troubleshooting.**

Education & Certifications

- **B.Sc. in Computer & Information Systems – 2009**
- **Microsoft MCITP (2008)**
- **MCSE, RHCE, SQL, VMware, Office 365 (training courses)**

- **AZ-900: Microsoft Azure Fundamentals**
